

## EEA/EIONET cooperation

### A country perspective

Johnny Auestad, Senior Adviser  
Norwegian Pollution Control  
Authority

## EIONET

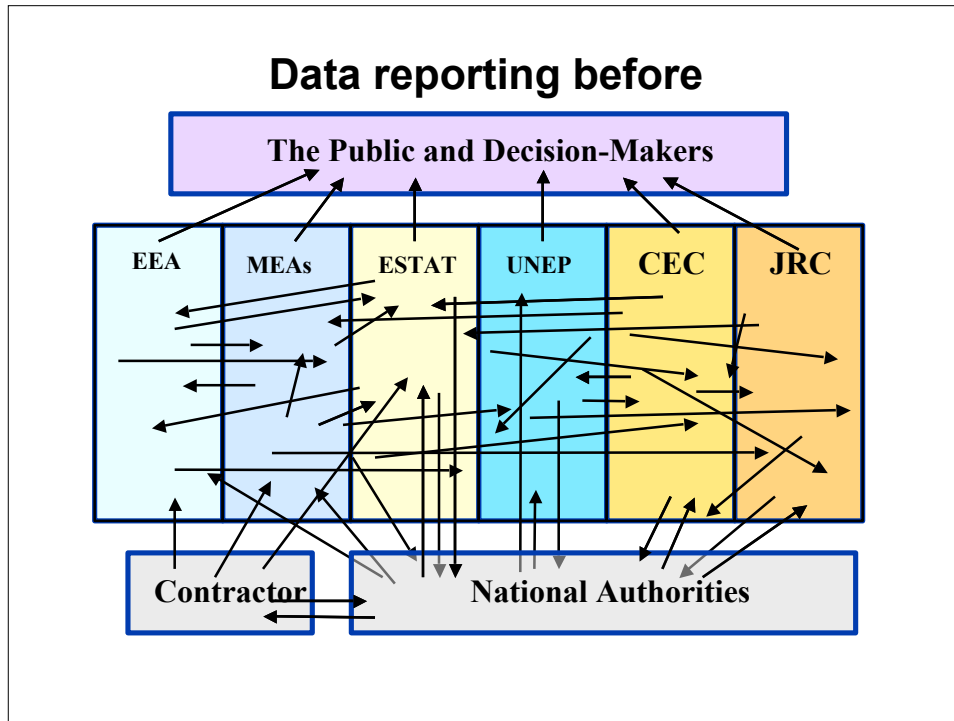

**EIONET-Norway** = Comprises 30 experts on 20-some thematic and subthematic areas in 20 national institutions (NRCs)

## National benefits

- A channel for informing the development of shared European environmental policies and regulations regarding aspects and issues of specific concern to Norway
- A setting for benchmarking Norway's environmental performance
- A workshop for developing shared standards and tools in the area of monitoring and state of environment reporting

## Main tasks of NFPs

- Coordinate the provision of national data for European assessments
- Coordinate consultations on draft European assessments among relevant NRCs
- Coordinate the dissemination of European assessment findings

Internet Explorer browser window showing the IET Data Repository homepage. The address bar displays `ycdr.eionet.europa.eu/`. The page header includes "IET Data Repository" and navigation tabs for "REPORTNET", "TOOLS", and "TOPICS". The breadcrumb trail is "Eionet > CDR".

The main content area contains the following text:

The Central Data Repository is part of the ReportNet architecture. The Central Data Repository is like a bookshelf, with data reports on the environment as submitted to international clients.

Each country either has a collection (📁) for its deliveries or a referral (🔗) to a different preferred repository. The data reports within each country collection are arranged under the relevant reporting obligations or agreements.

On the right side, there are buttons for "Global worklist", "Search", "Search XML files", and "Recent uploads".

The "Recent uploads" section lists the following items:

- CZ: UNFCCC submission 1990-2006
- SK: Situation Report for UWWTD, 2005 - 2006
- PL: Polish Marine Data 2005 - corrections
- GR: Greece Official Submission 2008 version 1.2 (update of v. 1.1)
- PL: Polish Marine Data 2003 - corrections
- SE: Ramsar

The "EEA Member countries" section lists:

- Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey, United Kingdom

The "Other countries" section lists:

- Albania, Andorra, Armenia, Azerbaijan, Belarus, Bosnia and Herzegovina

## Recommendation

The SAON process should take a closer look at and consider exploiting parallel developments for improving data access and data sharing in the context of the European Community
